Companies Are Scrambling to Answer Key Questions

MEET GLYNT

The Sustainability Data Company

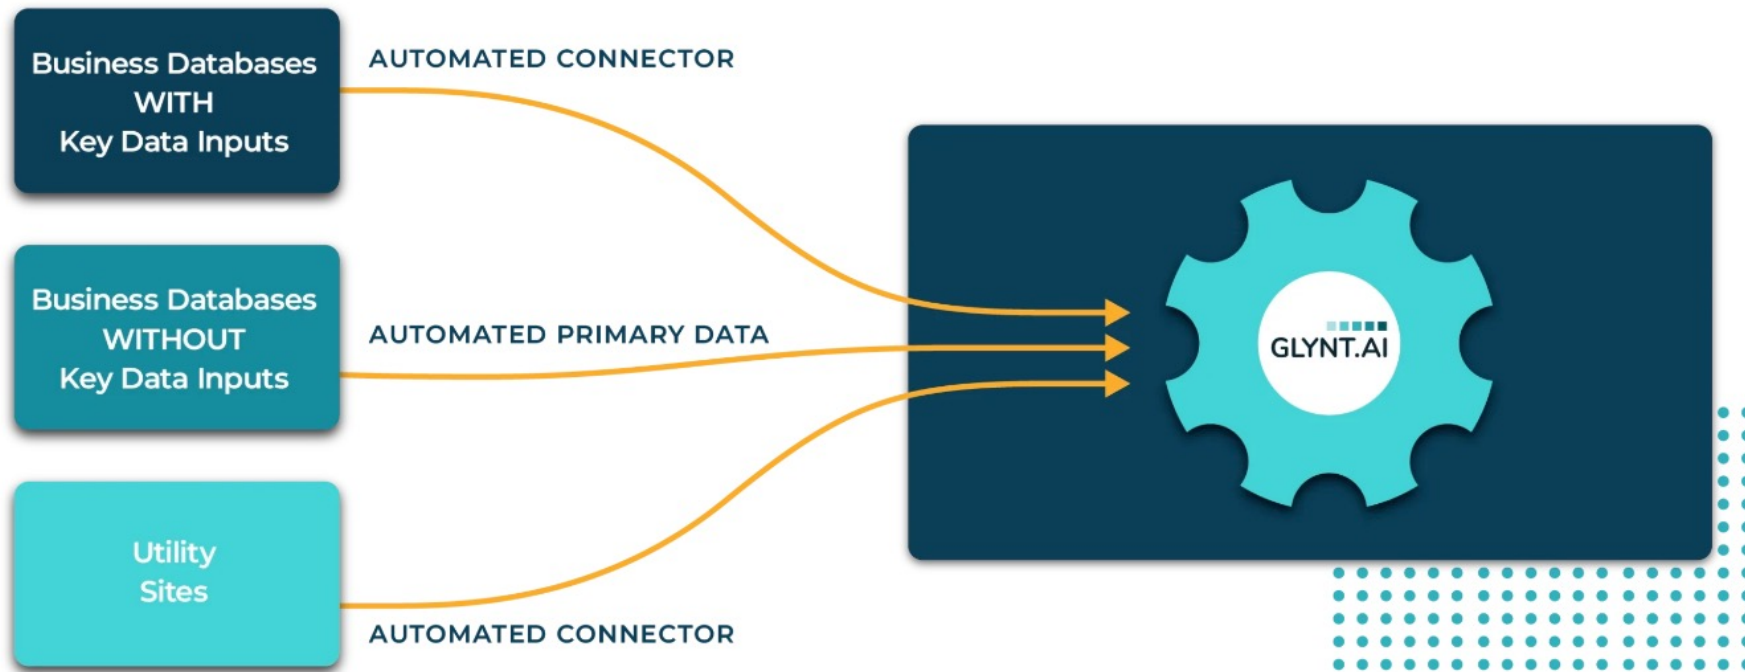

GLYNT provides sustainability data for businesses around the globe.

We produce financial-grade data at the company, site and product level.
GLYNT sustainability data is always accurate, audit-ready, granular and fresh.

GLYNT Captures Your Original Source Data

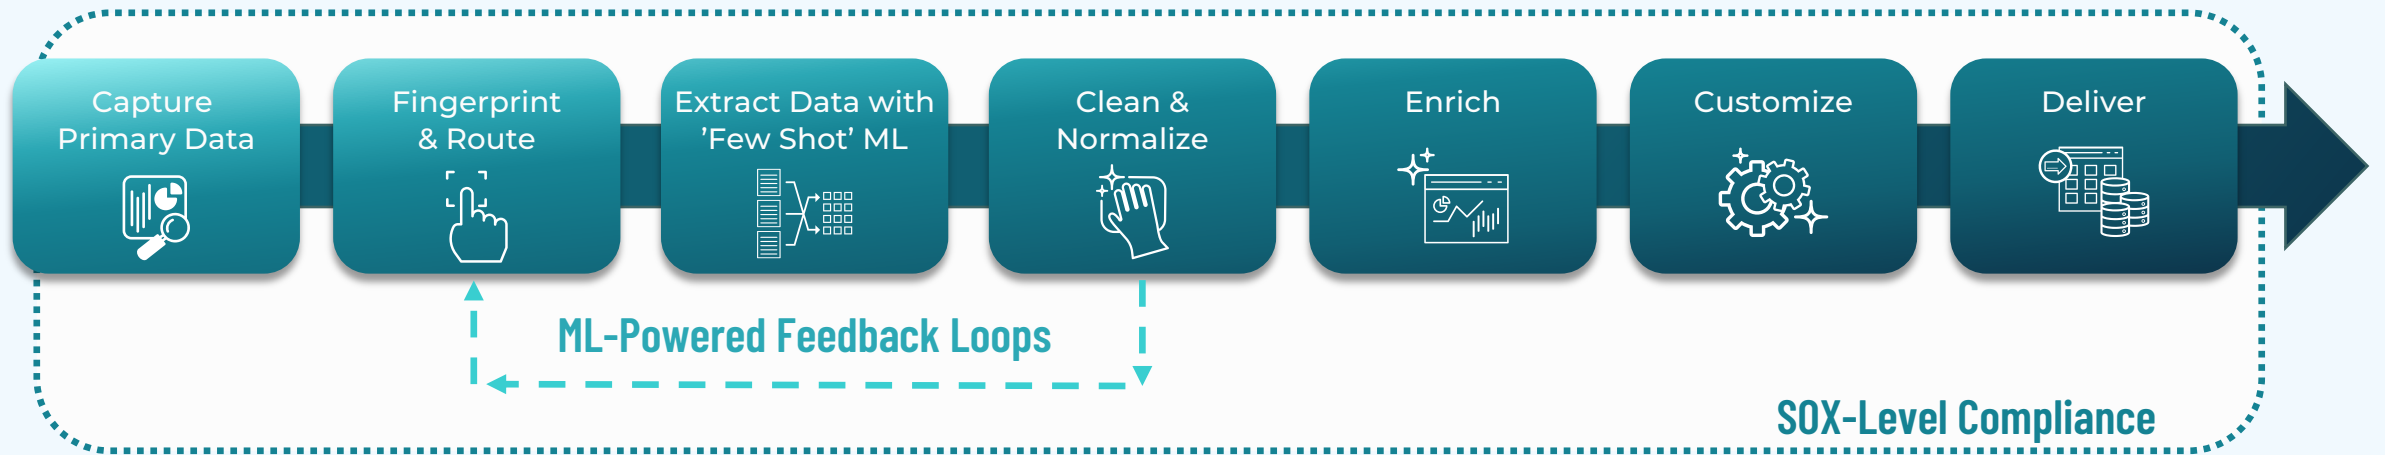

We offer multiple data transfer options and have years of experience

GLYNT Uses Advanced AI to Prepare Data

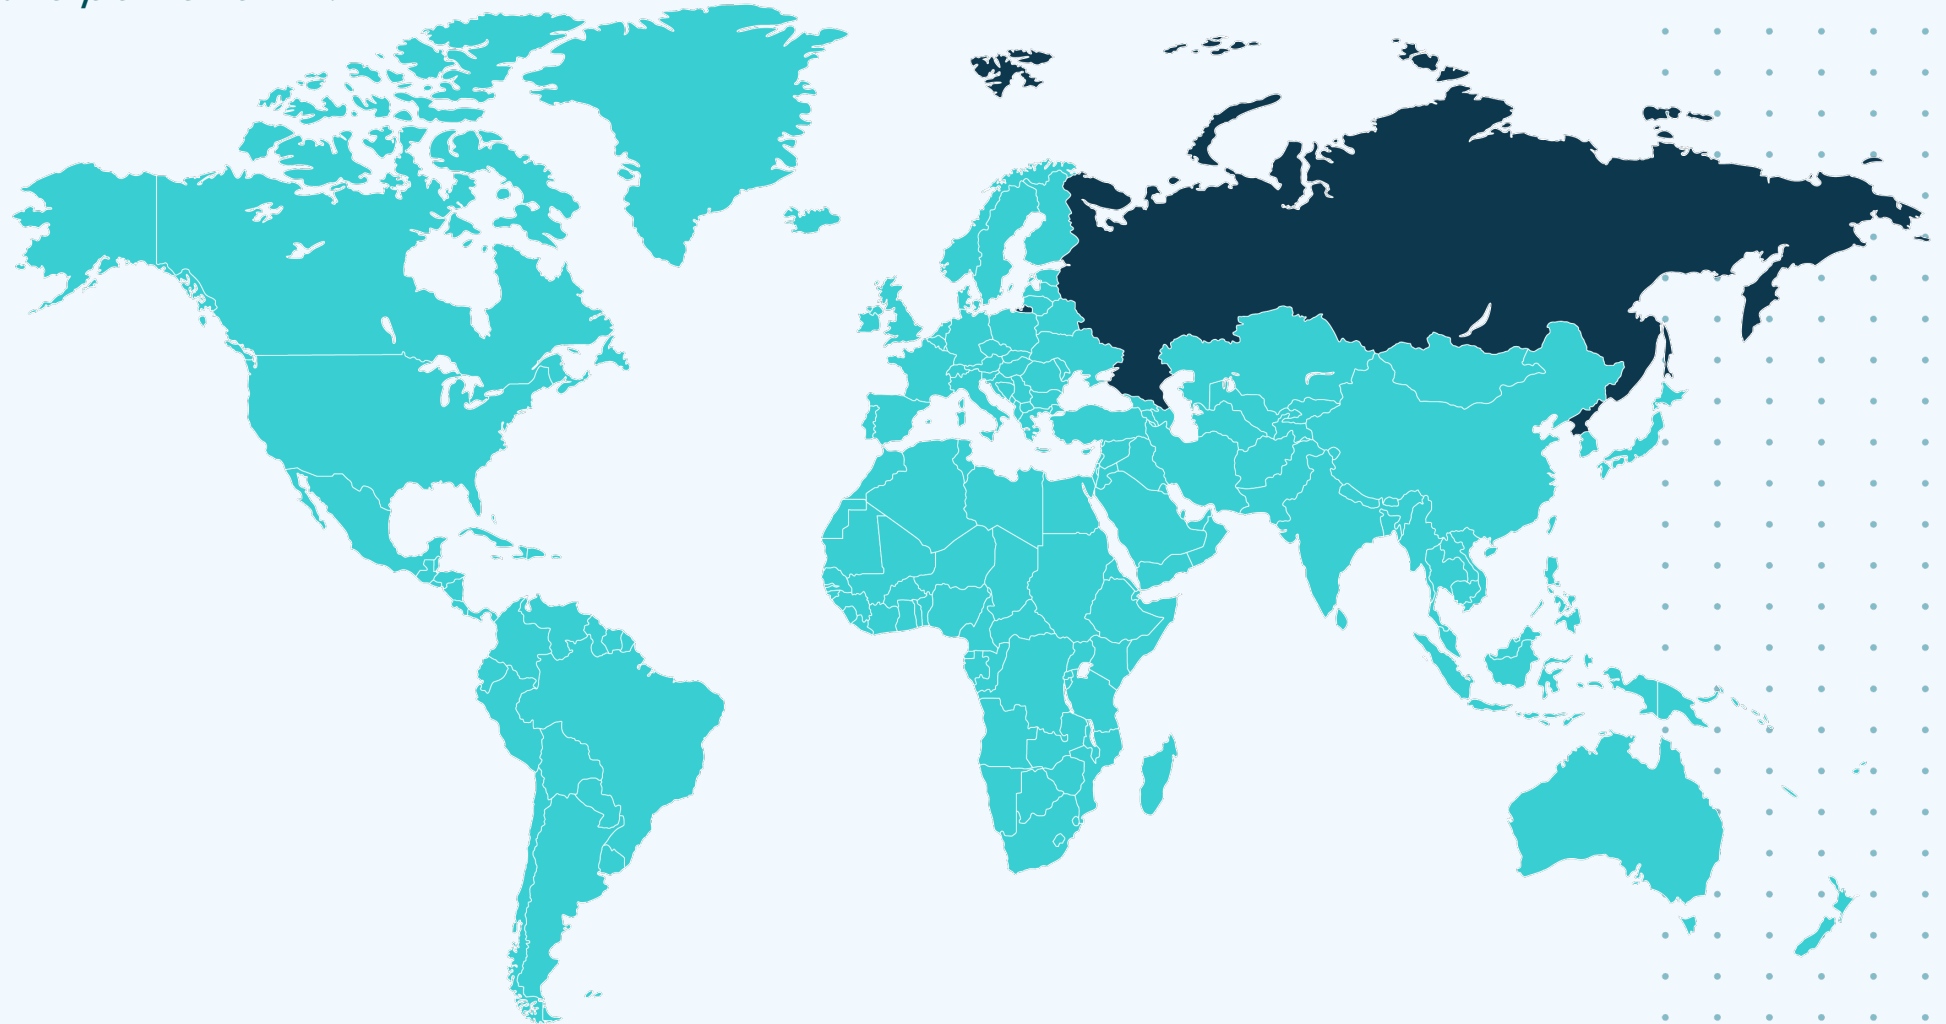

GLYNT's 'Few Shot' machine learning is 98%+ accurate from the start. Human review if needed. 99.5% accuracy guaranteed.

GLYNT's ML-Powered Data Pipeline

Global Coverage

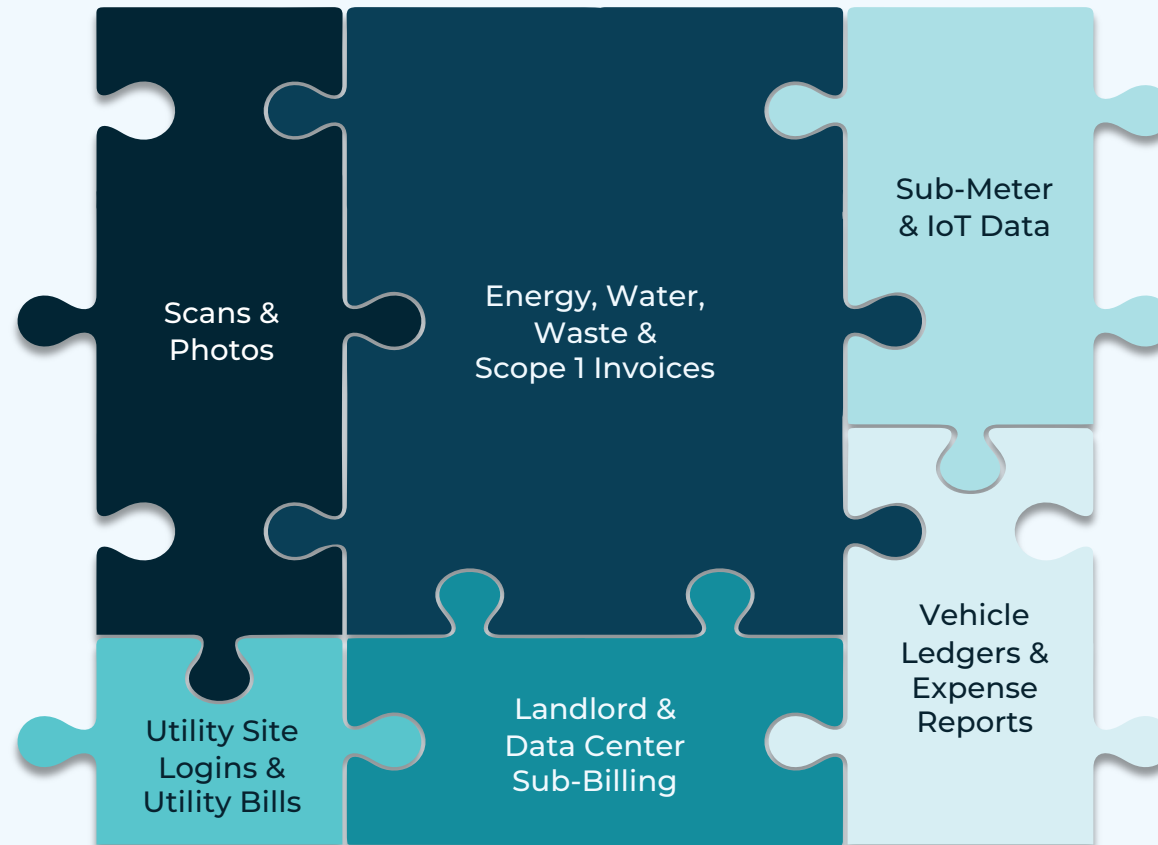

No footprint. That's the power of AI!

GLYNT Knits Together Disparate Data Sources

We aggregate and harmonize the varied sources and formats

Your Unified Sustainability Data

Our Data Flows Seamlessly into the Software You Already Use

GLYNT in 5 Key Phrases

“GLYNTify Your Data”

The GLYNT customer experience is simple: Original data in, Prepared data out. In the middle we “GLYNTify” the incoming data to make it accurate, harmonized, and audit-ready.

“Sustainability Data as Rigorously Prepared as Financial Data”

GLYNT is compliant with SOX-levels of financial data preparation, increasing data quality and reducing customer risk and expense

“You Can’t Manage What You Don’t Measure”

GLYNT sustainability data is accurate, granular and fresh – data that regulators, investors and customers rely on

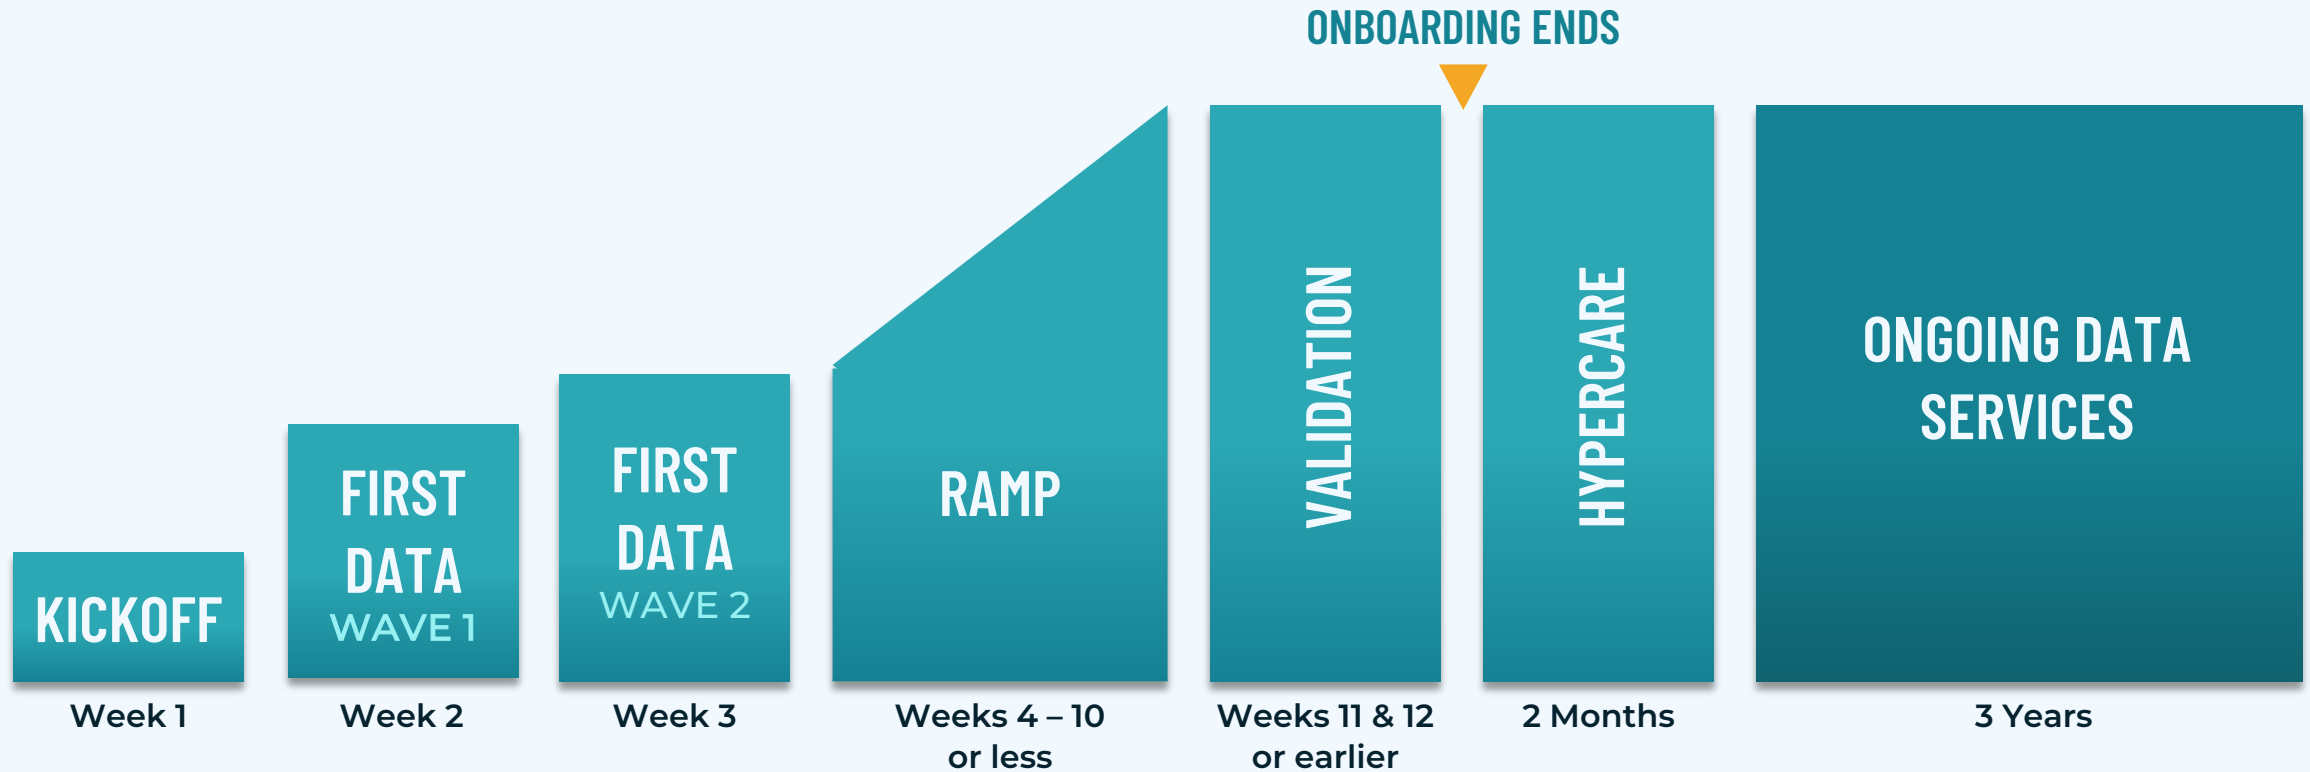

“AI is Only as Good as It’s Data”

The pendulum is swinging back from the terrific in AI to the quality of the data feeding the algorithms. Our customers power their Gen AI on “the ocean of accurate data from GLYNT.”

“I Have a GLYNT in My Eye” – Happy customers using GLYNT!

GLYNT Can Deliver a Year of Audit-Ready Data Under 90 Days

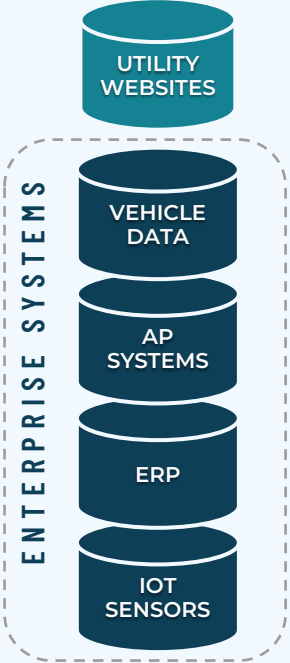

No setup | No footprint; global coverage with the same fast service | That's the power of automation!
The single solution for varied data types | Always audit-ready
